25 Notes to the Interim Condensed Consolidated Financial Statements

MANAGEMENT'S DISCUSSION AND ANALYSIS

This management's discussion and analysis ("MD&A") should be read in conjunction with Tourmaline's unaudited interim condensed consolidated financial statements and related notes as at and for the three and nine months ended September 30, 2017 and the consolidated financial statements for the year ended December 31, 2016. The consolidated financial statements and the MD&A can be found at www.sedar.com. This MD&A is dated November 8, 2017.

The financial information contained herein has been prepared in accordance with International Financial Reporting Standards ("IFRS") and sometimes referred to in this MD&A as Generally Accepted Accounting Principles ("GAAP") as issued by the International Accounting Standards Board. All dollar amounts are expressed in Canadian currency, unless otherwise noted.

Certain financial measures referred to in this MD&A are not prescribed by IFRS. See "Non-GAAP Financial Measures" for information regarding the following non-GAAP financial measures used in this MD&A: "cash flow", "operating netback", "working capital (adjusted for the fair value of financial instruments)", "net debt", "adjusted EBITDA", "senior debt", "total debt", and "total capitalization".

Additional information relating to Tourmaline can be found at www.sedar.com or at www.tourmalineoil.com.

Forward-Looking Statements - Certain information regarding Tourmaline set forth in this MD&A, including management's assessment of the Company's future plans and operations, contains forward-looking statements that involve substantial known and unknown risks and uncertainties. The use of any of the words "anticipate", "continue", "estimate", "expect", "may", "will", "project", "should", "believe" and similar expressions are intended to identify forward-looking statements. Such statements represent Tourmaline's internal projections, forecasts, estimates or beliefs concerning, among other things, an outlook on the estimated amounts and timing of capital investment or expenditures, anticipated future debt, expenses, production, cash flow and revenues or other expectations, beliefs, plans, objectives, assumptions, intentions or statements about future events or performance. These statements are only predictions and actual events or results may differ materially. Although Tourmaline believes that the expectations reflected in the forward-looking statements are reasonable, it cannot guarantee future results, levels of activity, performance or achievement since such expectations are inherently subject to significant business, economic, competitive, political and social risks, uncertainties and contingencies.

In particular, forward-looking statements included in this MD&A include, but are not limited to, statements with respect to: the size of, and future net revenues and cash flow from, crude oil, NGL (natural gas liquids) and natural gas reserves; future prospects; the focus of and timing of capital expenditures; expectations regarding the ability to raise capital and to continually add to reserves through acquisitions and development; access to debt and equity markets; projections of market prices and costs; the performance characteristics of the Company's crude oil, NGL and natural gas properties; crude oil, NGL and natural gas production levels and product mix; Tourmaline's future operating and financial results; capital investment programs; supply and demand for crude oil, NGL and natural gas; future royalty rates; drilling, development and completion plans and the results therefrom; future land expiries; dispositions and joint venture arrangements; amount of operating, transportation and general and administrative expenses; treatment under governmental regulatory regimes and tax and

environmental laws and regulations; and estimated tax pool balances. In addition, statements relating to "reserves" are deemed to be forward-looking statements, as they involve the implied assessment, based on certain estimates and assumptions, that the reserves described can be profitably produced in the future.

These forward-looking statements are subject to numerous risks and uncertainties, most of which are beyond the Company's control, including the impact of general economic conditions; volatility and uncertainty in market prices for crude oil, NGL and natural gas; industry conditions; currency fluctuation; imprecision of reserve estimates; liabilities inherent in crude oil, NGL and natural gas operations; environmental risks; incorrect assessments of the value of acquisitions and exploration and development programs; competition; the lack of availability of qualified personnel or management and skilled labour; changes in income tax and environmental laws and regulations and incentive programs relating to the oil and gas industry; hazards such as fire, explosion, blowouts, cratering, and spills, any of which could result in substantial damage to wells, production facilities, other property and the environment or in personal injury; stock market volatility; ability to access sufficient capital from internal and external sources; the receipt of applicable regulatory or third-party approvals; and the other risks considered under "Risk Factors" in Tourmaline's most recent annual information form available at www.sedar.com.

With respect to forward-looking statements contained in this MD&A, Tourmaline has made assumptions regarding: future commodity prices and royalty regimes; availability of skilled labour; timing and amount of capital expenditures; future exchange rates; the impact of increasing competition; conditions in general economic and financial markets; availability of drilling and related equipment and services; effects of regulation by governmental agencies; and future operating costs.

Management has included the above summary of assumptions and risks related to forward-looking statements provided in this MD&A in order to provide readers with a more complete perspective on Tourmaline's future operations and such information may not be appropriate for other purposes. Tourmaline's actual results, performance or achievement could differ materially from those expressed in, or implied by, these forward-looking statements and, accordingly, no assurance can be given that any of the events anticipated by the forward-looking statements will transpire or occur, or if any of them do so, what benefits that the Company will derive therefrom. Readers are cautioned that the foregoing lists of factors are not exhaustive.

These forward-looking statements are made as of the date of this MD&A and the Company disclaims any intent or obligation to update publicly any forward-looking statements, whether as a result of new information, future events or results or otherwise, other than as required by applicable securities laws.

Boe Conversions - Per barrel of oil equivalent amounts have been calculated using a conversion rate of six thousand cubic feet of natural gas to one barrel of oil equivalent (6:1). Barrel of oil equivalents (boe) may be misleading, particularly if used in isolation. A boe conversion ratio of 6 mcf:1 bbl is based on an energy equivalency conversion method primarily applicable at the burner tip and does not represent a value equivalency at the wellhead. In addition, as the value ratio between natural gas and crude oil based on current prices of natural gas and crude oil is significantly different from the energy equivalency of 6:1, utilizing a conversion on a 6:1 basis may be misleading as an indication of value.

PRODUCTION

	Three Months Ended September 30,			Nine Months Ended September 30,		
	2017	**2016**	**Change**	**2017**	**2016**	**Change**
Natural gas *(mcf/d)*	**1,187,462**	895,256	33%	**1,192,748**	969,089	23%
Oil *(bbl/d)*	**19,373**	11,826	64%	**17,604**	12,642	39%
NGL *(bbl/d)*	**19,622**	8,312	136%	**18,860**	9,453	100%
Oil equivalent *(boe/d)*	**236,905**	169,347	40%	**235,255**	183,610	28%
Natural gas %	**84%**	88%		**85%**	88%	

Production for the three months ended September 30, 2017 averaged 236,905 boe/d, a 40% increase over the average production for the same quarter of 2016 of 169,347 boe/d. For the nine months ended September 30, 2017, production increased 28% to 235,255 boe/d from 183,610 boe/d for the same period of 2016.

The increase in production is primarily related to the Company's successful exploration and production program with a small increase related to property acquisitions completed in the past year. Approximately 85% of the growth in production volumes can be attributed to wells brought on stream from the Company's exploration and production program, after taking decline rates into consideration. The remainder of the change relates to property acquisitions (net of dispositions), which is primarily the assets acquired from Shell Canada in the fourth quarter of 2016. The growth in oil and NGL production is the result of increased drilling in the Spirit River/Peace River High Charlie Lake oil plays, incremental liquids recovered in the Wild River area via deep-cut processing, and strong condensate recoveries from new wells commencing production as the liquids-rich Montney Turbidite is developed in Northeast British Columbia.

Full-year average production guidance for 2017 is between 240,000-250,000 boe/d which is in the range of the initial Company guidance released March 7, 2017 in the Company's December 31, 2016 MD&A.

REVENUE

	Three Months Ended September 30,			Nine Months Ended September 30,		
(000s)	**2017**	**2016**	**Change**	**2017**	**2016**	**Change**
Revenue from:						
Natural gas	**$ 171,629**	$ 210,562	(18)%	**$ 825,870**	$ 517,606	60%
Oil and NGL	**132,025**	72,562	82%	**390,208**	205,056	90%
Realized gain from:						
Natural gas	**103,949**	19,848	424%	**135,562**	86,875	56%
Oil and NGL	**2,988**	1,508	98%	**4,865**	21,174	(77)%
Total revenue from natural gas, oil and NGL sales	**$ 410,591**	$ 304,480	35%	**$ 1,356,505**	$ 830,711	63%

Revenue for the three months ended September 30, 2017 increased 35% to $410.6 million from $304.5 million for the same quarter of 2016. Revenue for the nine-month period ended September 30, 2017 increased 63% from $830.7 million in 2016 to $1,356.5 million in 2017. Higher revenue for both periods is consistent with the

significant increase in production volumes. Revenue includes all petroleum, natural gas and NGL sales and the realized gain on risk management activities.

Revenue for the third quarter of 2017 included a gain on risk management activities of $106.9 million (for the nine months ended September 30, 2017 - $140.4 million) compared to a gain of $21.4 million for the same period of the prior year (for the nine months ended September 30, 2016 - $108.0 million). Realized gains on commodity contracts in 2017 have increased compared to the same periods of the prior year primarily due to a significant decline in the benchmark price of natural gas in the third quarter of 2017 which increased the premium received on commodity contracts. Realized prices exclude the effect of unrealized gains or losses on commodity contracts. Once these gains and losses are realized they are included in the per-unit amounts.

TOURMALINE REALIZED PRICES:

		Three Months Ended September 30,			Nine Months Ended September 30,
	2017	**2016**	**Change**	**2017**	**2016**	**Change**
Natural gas *($/mcf)*	**$ 2.52**	$ 2.80	(10)%	**$ 2.95**	$ 2.28	29%
Oil *($/bbl)*	**$ 57.17**	$ 54.97	4%	**$ 60.06**	$ 54.59	10%
NGL *($/bbl)*	**$ 18.34**	$ 18.66	(2)%	**$ 20.68**	$ 14.33	44%

RECONCILIATION OF WEIGHTED AVERAGE INDEX PRICE TO TOURMALINE'S REALIZED GAS PRICES:

			Three Months Ended September 30,
($/mcf)	**2017**	**2016**	**Change**
Weighted average index natural gas prices	**$ 1.46**	$ 2.38	(39)%
Heat/quality differential	**0.11**	0.18	(39)%
Realized gain	**0.95**	0.24	296%
Tourmaline realized natural gas price	**$ 2.52**	$ 2.80	(10)%
Premium to benchmark pricing due to higher heat content	**8%**	8%	

CURRENCY – EXCHANGE RATES:

	Three Months Ended September 30,		
	2017	**2016**	**Change**
CAD$/USD$ [1]	**$ 0.7980**	$ 0.7668	4%

(1) Average rates for the period.

The realized average natural gas price for the three months ended September 30, 2017 was $2.52/mcf, which is 10% lower than the same period of the prior year. The decrease reflects lower natural gas benchmark prices in the quarter which were partially offset by higher realized gains on risk management activities. For the nine months ended September 30, 2017, the realized average natural gas price was $2.95/mcf, up 29% from $2.28/mcf for the same period of the prior year which reflects higher natural gas prices in the first and second quarter of 2017, compared to 2016 and partially reduced by the decline in prices experienced in the third quarter of 2017. Also included in the realized price of natural gas is the premium received on gas sold at Malin and City Gate which is significantly higher than the AECO price.

Realized oil prices increased by 4% and 10% for the three and nine months ended September 30, 2017, respectively, compared to the same periods of the prior year. The increase in price reflects the higher benchmark price for oil.

For the three months ended September 30, 2017, the realized NGL price was consistent with the prior period. For the nine months ended September 30, 2017, the realized NGL price increased by 44% to $20.68/bbl from $14.33/bbl in the prior period. The increase is primarily the result of a recovery in the price of propane which was significantly discounted in 2016 as well as an increase in the other NGL product prices consistent with the higher prices received for oil and natural gas over the period.

ROYALTIES

	Three Months Ended September 30		Nine Months Ended September 30,	
(000s)	**2017**	**2016**	**2017**	**2016**
Natural gas	**$ 259**	$ 3,518	**$ 23,021**	$ 6,498
Oil and NGL	**12,006**	8,467	**36,504**	20,607
Total royalties	**$ 12,265**	$ 11,985	**$ 59,525**	$ 27,105
Royalties as a percentage of revenue	**4.0%**	4.2%	**4.9%**	3.8%

For the quarter ended September 30, 2017, the average effective royalty rate was 4.0%, essentially consistent with the same quarter of 2016. For the nine-month period ended September 30, 2017, the average effective royalty rate increased from 3.8% in 2016 to 4.9% in 2017. The increase in the average effective royalty rate for 2017 can primarily be attributed to higher commodity prices received during the first half of 2017 as well as the adoption of the Modernized Royalty Framework ("MRF").

The Company continues to benefit from the New Well Royalty Reduction Program and the Natural Gas Deep Drilling Program in Alberta, as well as the Deep Royalty Credit Program in British Columbia. The Company also receives gas cost allowance from the Crown, which further reduces royalties to account for expenses incurred to process and transport the Crown's portion of natural gas production.

On January 1, 2017, the Company adopted the MRF introduced by the Alberta Government in 2016. This new royalty regime is applicable to all new wells drilled beginning January 1, 2017, and all other wells drilled prior to January 1, 2017 will follow the old framework for a further 10 years. The Company believes that the MRF is generally consistent with the initial goal of incentivizing the use of technology to improve productivity and rewards producers deploying the most competitive operating practices. Under the MRF, the Company anticipates an increase in the corporate royalty rate but based on the Company's current development plans and operational practices, the increase is not expected to be significant.

The Company expects its royalty rate for 2017 to be approximately 5.0% which has been revised downward from the previous Company guidance of 6.5% contained in the Company's June 30, 2017 MD&A. The royalty rate is sensitive to commodity prices, and as such, the lower than forecasted commodity prices are expected to impact the rate for the remainder of 2017.

COMMODITY MARKETING

	Three Months Ended September 30,			Nine Months Ended September 30,		
(000s)	**2017**	**2016**	**Change**	**2017**	**2016**	**Change**
Marketing revenue	**$ 3,845**	$ –	100%	**$ 4,263**	$ –	100%
Marketing purchases	**(4,229)**	–	(100)%	**(4,687)**	–	(100)%
Net marketing (loss)	**$ (384)**	$ –	(100)%	**$ (424)**	$ –	(100)%

During the second quarter of 2017, the Company commissioned the Mulligan marketing terminal in the Gordondale area of Alberta. The throughput from the marketing terminal is comprised of Tourmaline produced oil and NGL volumes as well as oil and NGL volumes purchased from third parties. The revenue and purchases from third parties are recorded gross for financial statement presentation purposes. Any gains or losses on the sale of third-party product related to the price differential are recorded in marketing revenue.

OTHER INCOME

	Three Months Ended September 30,			Nine Months Ended September 30,		
(000s)	**2017**	**2016**	**Change**	**2017**	**2016**	**Change**
Other income	**$ 8,097**	$ 6,124	32%	**$ 21,613**	$ 19,774	9%

Other income increased from $6.1 million in the third quarter of 2016 to $8.1 million for the same quarter of 2017. For the nine-month period ended September 30, 2017, other income was $21.6 million, up from $19.8 million in the prior year. The increase in other income in the third quarter of 2017 is due to the Company utilizing existing infrastructure to provide additional services to third parties including gas processing, water disposal, and road access.

OPERATING EXPENSES

	Three Months Ended September 30,			Nine Months Ended September 30,		
(000s) except per unit amounts	**2017**	**2016**	**Change**	**2017**	**2016**	**Change**
Operating expenses	**$ 65,412**	$ 50,754	29%	**$ 207,850**	$ 174,274	19%
Per boe	**$ 3.00**	$ 3.26	(8)%	**$ 3.24**	$ 3.46	(6)%

Operating expenses include all periodic lease and field-level expenses and exclude income recoveries from processing third-party volumes. For the third quarter of 2017, total operating expenses were $65.4 million compared to $50.8 million in 2016, an increase of 29% over a production base increase of 40% for the same period. Operating costs for the nine months ended September 30, 2017 were $207.9 million, compared to $174.3 million for the same period of 2016, reflecting a 19% increase in total costs over a production base increase of 28% for the same period.

On a per-boe basis, the costs decreased from $3.26/boe for the third quarter of 2016 to $3.00/boe in the third quarter of 2017. For the nine months ended September 30, 2017, operating costs were $3.24/boe, down from $3.46/boe in the prior year. Along with a commitment to continue to drive down the overall cost structure, the Company continues to realize increased operational efficiencies in all three core areas along with fixed costs being distributed over a significantly higher production base.

The Company now expects full year 2017 operating expenses to average approximately $3.25/boe in 2017 which has been further revised downward from $3.60/boe originally disclosed March 7, 2017 and $3.50/boe originally disclosed August 2, 2017. Actual operating costs per boe can change, however, depending on a number of factors, including the Company's actual production levels.

TRANSPORTATION

	Three Months Ended September 30,			Nine Months Ended September 30,		
(000s) except per unit amounts	**2017**	**2016**	**Change**	**2017**	**2016**	**Change**
Natural gas transportation	**$ 46,499**	$ 34,223	36%	**$ 138,399**	$ 85,752	61%
Oil and NGL transportation	**19,024**	9,775	95%	**47,849**	26,657	79%
Total transportation	**$ 65,523**	$ 43,998	49%	**$ 186,248**	$ 112,409	66%
Per boe	**$ 3.01**	$ 2.82	7%	**$ 2.90**	$ 2.23	30%

For the third quarter of 2017, total transportation expenses were $65.5 million compared to $44.0 million in 2016. For the nine months ended September 30, 2017 transportation expenses were $186.2 million, compared to $112.4 million for the same period of 2016. Both periods reflect increased costs related to higher production volumes.

On a per-boe basis, the transportation increased from $2.82/boe for the third quarter of 2016 to $3.01/boe in the third quarter of 2017. For the nine months ended September 30, 2017, transportation costs were $2.90/boe, up from $2.23/boe for the same period of 2016. The increase in per-unit costs in 2017 reflects an increased focus on diversifying markets where Tourmaline sells its natural gas. In the third quarter of 2016, Tourmaline began selling natural gas at Malin, Oregon and in the fourth quarter of 2016 Tourmaline extended its transportation

capability and began selling natural gas at City Gate, California, where the Company received a higher price for its natural gas. The increased distance resulted in higher per-boe fuel and transportation costs. Additionally, pipeline tolls for natural gas transportation have increased in 2017 compared to 2016.

GENERAL & ADMINISTRATIVE EXPENSES ("G&A")

	Three Months Ended September 30,			Nine Months Ended September 30,		
(000s) except per unit amounts	**2017**	**2016**	**Change**	**2017**	**2016**	**Change**
G&A expenses	**$ 18,008**	$ 14,549	24%	**$ 53,188**	$ 44,212	20%
Administrative and capital recovery	**(1,842)**	(1,093)	69%	**(5,467)**	(3,055)	79%
Capitalized G&A	**(6,208)**	(5,763)	8%	**(17,761)**	(17,918)	(1)%
Total G&A expenses	**$ 9,958**	$ 7,693	29%	**$ 29,960**	$ 23,239	29%
Per boe	**$ 0.46**	$ 0.49	(6)%	**$ 0.47**	$ 0.46	2%

Total G&A expenses in the third quarter of 2017 were $10.0 million compared to $7.7 million for the same quarter of 2016. For the nine-month period ended September 30, 2017, G&A expenses were $30.0 million compared to $23.2 million for the same period in 2016. The increase is primarily due to staff and office space additions needed to manage the larger production, reserve and land base.

On a per-boe basis, G&A expenses for the three and nine months ended September 30, 2017 have remained consistent throughout the periods.

As production continues to increase in 2017, the G&A costs per boe are expected to decrease and average approximately $0.45/boe which is unchanged from the initial guidance released March 7, 2017. Actual G&A costs per boe can change, however, depending on a number of factors including the Company's actual production levels.

SHARE-BASED PAYMENTS

	Three Months Ended September 30,		Nine Months Ended September 30,	
(000s) except per unit amounts	**2017**	**2016**	**2017**	**2016**
Share-based payments	**$ 8,894**	$ 10,546	**$ 29,422**	$ 35,160
Capitalized share-based payments	**(4,447)**	(5,273)	**(14,711)**	(17,580)
Total share-based payments	**$ 4,447**	$ 5,273	**$ 14,711**	$ 17,580
Per boe	**$ 0.20**	$ 0.34	**$ 0.23**	$ 0.35

The Company uses the fair-value method for the determination of non-cash related share-based payments expense. During the third quarter of 2017, 527,500 stock options were granted at a weighted-average exercise price of $25.18.

The Company recognized $4.4 million of share-based payments expense in the third quarter of 2017 compared to $5.3 million in the third quarter of 2016. Capitalized share-based payments for the third quarter of 2017 were $4.4 million compared to $5.3 million for the same period of the prior year.

For the nine months ended September 30, 2017, share-based payment expense totalled $14.7 million and a further $14.7 million in share-based payments were capitalized (nine months ended September 30, 2016 - $17.6 million and $17.6 million, respectively).

Share-based payments are lower in 2017 compared to the same periods of 2016, which reflects options with a lower fair value being expensed in 2017 compared to 2016.

DEPLETION, DEPRECIATION AND AMORTIZATION ("DD&A")

	Three Months Ended September 30,		Nine Months Ended September 30,	
(000s) except per unit amounts	**2017**	**2016**	**2017**	**2016**
Total depletion, depreciation and amortization	**$ 193,365**	$ 159,861	**$ 571,532**	$ 509,186
Less mineral lease expiries	**(8,963)**	(7,731)	**(21,148)**	(14,611)
Depletion, depreciation and amortization	**$ 184,402**	$ 152,130	**$ 550,384**	$ 494,575
Per boe	**$ 8.46**	$ 9.76	**$ 8.57**	$ 9.83

DD&A expense, excluding mineral lease expiries, was $184.4 million for the third quarter of 2017 compared to $152.1 million for the same period of 2016. For the nine-month period ended September 30, 2017, DD&A expense (excluding mineral lease expiries) was $550.4 million compared to $494.6 million in the same period of 2016. The increase in DD&A expense in 2017 over 2016 is primarily due to higher production volumes.

The per-unit DD&A rate (excluding the impact of mineral lease expiries) was $8.46/boe for the third quarter of 2017 compared to the rate of $9.76/boe for the same quarter of 2016. The per-unit DD&A rate (excluding the impact of mineral lease expiries) was $8.57/boe for the nine month period ended September 30, 2017 compared to the rate of $9.83/boe in the same period of the prior year. The lower rate in 2017 compared to 2016 reflects lower future development costs per well as drilling and completion costs have decreased over the past year thereby adding a higher proportion of reserves with lower associated future development costs, resulting in a lower depletion rate.

Mineral lease expiries for the three months ended September 30, 2017 were $9.0 million, compared to expiries in the same quarter of the prior year of $7.7 million. For the nine months ended September 30, 2017, expiries were $21.1 million compared to $14.6 million for the same period of 2016. The Company prioritizes drilling on what it believes to be the most cost-efficient and productive acreage, and with such a large land base, the Company has chosen not to continue some of the expiring sections of land. The Company explores all alternatives (including swaps, farm-outs, joint ventures and dispositions) to realize the value from these sections before they expire.

FINANCE EXPENSES

	Three Months Ended September 30,			Nine Months Ended September 30,		
(000s)	**2017**	**2016**	**Change**	**2017**	**2016**	**Change**
Interest expense	**$ 11,149**	$ 9,985	12%	**$ 31,736**	$ 30,734	3%
Accretion expense	**1,369**	775	77%	**3,829**	2,278	68%
Foreign exchange (gain) on U.S. denominated debt	**(42,941)**	(18,494)	132%	**(85,088)**	(64,748)	31%
Realized loss on cross-currency swaps	**42,941**	18,494	132%	**85,088**	64,748	31%
Realized loss on interest rate swaps	**756**	671	13%	**2,548**	2,414	6%
Transaction costs on corporate and property acquisitions	**32**	–	100%	**133**	214	(38)%
Total finance expenses	**$ 13,306**	$ 11,431	16%	**$ 38,246**	$ 35,640	7%

Finance expenses for the three months ended September 30, 2017 totaled $13.3 million compared to $11.4 million for the same period of 2016. The average bank debt outstanding and the average effective interest rate on the debt was $1,494.4 million and 2.62% for the three months ended September 30, 2017 compared to $1,337.2 million and 2.63% for the same period of 2016. The higher average bank debt outstanding resulted in higher interest expense for the current period.

For the nine months ended September 30, 2017, finance expenses totaled $38.2 million compared to $35.6 million for the same period of 2016. The average bank debt outstanding and the average effective interest rate on the debt for the nine months ended September 30, 2017 was $1,488.5 million and 2.50% compared to $1,436.1 million and 2.52% for the same period of 2016, respectively. The increase in finance expenses can be attributed to increased interest expense due to a higher average debt outstanding. Accretion expense has also increased during the period resulting from a higher decommissioning liability balance and risk-free rate.

For the three and nine month periods ended September 30, 2017, the Company drew from the credit facility in U.S. dollars, as permitted under the credit facility, which when repaid created a foreign exchange gain. Concurrent with the draw of U.S. dollar denominated borrowings, the Company entered into cross-currency swaps to manage the foreign currency risk resulting from holding U.S. dollar denominated borrowings. This transaction allows the Company to take advantage of the interest rate spread between CDOR and LIBOR without taking on foreign exchange risk.

DEFERRED INCOME TAXES (RECOVERY)

For the three and nine months ended September 30, 2017, the provision for deferred income tax expense was $23.1 million and $109.8 million compared to deferred income tax expense of $11.8 million and deferred income tax recovery of $25.0 million for the same period in 2016. The deferred income tax expense is primarily due to the pre-tax income of $73.6 million and $368.3 million recorded for the three and nine months ended September 30, 2017 compared to a pre-tax income of $36.3 million and pre-tax loss of $117.9 million for the same periods of 2016.

CASH FLOW FROM OPERATING ACTIVITIES, CASH FLOW AND NET EARNINGS (LOSS)

	Three Months Ended September 30,			Nine Months Ended September 30,		
(000s) except per unit amounts	**2017**	**2016**	**Change**	**2017**	**2016**	**Change**
Cash flow from operating activities	**$ 266,525**	$ 185,067	44%	**$ 883,107**	$ 504,767	75%
Per share [1]	**$ 0.99**	$ 0.79	25%	**$ 3.28**	$ 2.20	49%
Cash flow [2]	**$ 251,327**	$ 185,531	35%	**$ 857,531**	$ 479,259	79%
Per share [1][2]	**$ 0.93**	$ 0.79	18%	**$ 3.18**	$ 2.09	52%
Net earnings (loss)	**$ 50,580**	$ 24,738	104%	**$ 258,694**	$ (91,592)	382%
Per share [1]	**$ 0.19**	$ 0.10	90%	**$ 0.96**	$ (0.40)	340%
Operating netback per boe [2]	**$ 12.27**	$ 12.69	(3)%	**$ 14.06**	$ 10.28	37%

(1) Per share amounts have been calculated using the weighted average number of diluted common shares except the net earnings (loss) per share amounts in periods which Tourmaline has reported a net loss. In these periods, the weighted average number of basic common shares has been used as there is an anti-dilutive impact on per-share calculations.

(2) See "Non-GAAP Financial Measures".

Cash flow for the three months ended September 30, 2017 was $251.3 million or $0.93 per diluted share compared to $185.5 million or $0.79 per diluted share for the same period of 2016. Cash flow for the nine months ended September 30, 2017 was $857.5 million or $3.18 per diluted share compared to $479.3 million or $2.09 per diluted share for the same period of 2016.

The Company had after-tax net earnings for the three months ended September 30, 2017 of $50.6 million or $0.19 per diluted share compared to after-tax net earnings of $24.7 million or $0.10 per share for the same period of 2016. For the nine-month period ended September 30, 2017, after-tax net earnings of $258.7 million or $0.96 per diluted share compared to an after-tax net loss of $91.6 million or $0.40 per share for the first nine months of 2016. The increase in both cash flow and after-tax net earnings in 2017 reflects higher realized oil, natural gas and NGL prices and an increase in production over 2016.

CAPITAL EXPENDITURES

	Three Months Ended September 30,		Nine Months Ended September 30,	
(000s)	**2017**	**2016**	**2017**	**2016**
Land and seismic	**$ 4,070**	$ 5,537	**$ 29,674**	$ 13,793
Drilling and completions	**300,787**	125,708	**663,832**	290,153
Facilities	**127,517**	49,313	**318,822**	158,169
Property acquisitions	**26,525**	37,634	**27,350**	225,449
Property dispositions	**–**	–	**(4,000)**	(18,000)
Other	**6,567**	6,256	**18,705**	18,751
Total cash capital expenditures	**$ 465,466**	$ 224,448	**$ 1,054,383**	$ 688,315

During the third quarter of 2017, the Company invested $465.5 million of cash consideration, net of dispositions, compared to $224.4 million for the same period of 2016. Expenditures on exploration and production were $432.4 million compared to $180.6 million for the same quarter of 2016. During the nine-month period ended

September 30, 2017, the Company invested $1,054.4 million of cash consideration, net of dispositions, compared to $688.3 million for the same period of 2016.

The drilling and completion costs of $663.8 million in 2017 include a combined 210.67 more net wells drilled and completed when compared to 2016 at a lower cost per well. The lower costs per well reflect the Company's continuously improving operating practices, combined with reduced drilling and completion service costs.

Facilities expenditures in the quarter include costs associated with the Wildhay compressor expansion which was commissioned in the third quarter of 2017, as well as preliminary costs on the Edson Gas Plant expansion and construction costs for the Gundy Deep Cut Gas Plant, expected to be commissioned in 2019.

The following table summarizes the drill, complete and tie-in activities for the periods:

	Nine Months Ended September 30, 2017		**Nine Months Ended September 30, 2016**	
	Gross	**Net**	**Gross**	**Net**
Drilled	**226**	**196.47**	96	84.21
Completed	**226**	**199.08**	115	100.67
Tied-in	**201**	**182.82**	99	89.61

Exploration and production capital expenditures in 2017 are forecast to be $1.3 billion which is unchanged from the initial guidance disclosed in the February 22, 2017 press release. The Company expects drilling and completions costs of approximately $870.0 million, facilities expenditures (including equipment, pipelines and tie-ins) of $425.0 million as well as land and seismic expenditures of $50.0 million. The capital budget is closely monitored and will continue to be adjusted as required depending on cash flow available.

Acquisitions and Dispositions

2017

On July 20, 2017, the Company completed an asset swap in NEBC allowing for the consolidation in the Sundown complex. The Company exchanged predominantly Exploration and Evaluation ("E&E") assets and cash consideration of $19.0 million for producing properties, land and reserves.

2016

On January 29, 2016, the Company acquired assets in the Minehead-Edson-Ansell area of the Alberta Deep Basin for cash consideration of $183.0 million, before customary adjustments. The acquisition resulted in an increase in Property, Plant and Equipment ("PP&E") of approximately $179.2 million, an increase in Exploration and Evaluation E&E assets of $4.8 million, and the assumption of $1.0 million in decommissioning liabilities. The assets acquired included land interests, production, reserves and facilities in the area.

On March 1, 2016, the Company sold non-core assets for cash consideration of $18.0 million, before customary adjustments.

On November 30, 2016, the Company acquired assets from Shell Canada located in the Alberta Deep Basin and the northeast B.C. Gundy area for total consideration of $1,367.8 million, including cash consideration of $1,000.1

million and 10,017,938 Tourmaline common shares at a deemed price of $36.70, before customary adjustments. The acquisition resulted in an increase in PP&E of approximately $1,333.4 million, an increase in E&E assets of $38.5 million, and the assumption of $4.1 million in decommissioning liabilities. Total transaction costs incurred by the Company of $1.6 million were associated with this acquisition and expensed in the consolidated statement of income (loss) and comprehensive income (loss). The assets acquired include land interests, production, reserves and facilities.

On December 23, 2016, the Company sold 50% of its interest in the planned Mulligan marketing terminal in the Gordondale area of Alberta for $30.0 million, before customary adjustments.

LIQUIDITY AND CAPITAL RESOURCES

The Company has a covenant-based, unsecured, credit facility in place with a syndicate of banks, the details of which are described in note 9 of the Company's consolidated financial statements for the year ended December 31, 2016 and in note 7 of the Company's unaudited interim condensed financial statements for the three and nine months ended September 30, 2017. This is an extendible revolving facility in the amount of $1,800.0 million with a maturity date of June 2022. The maturity date may, at the request of the Company and with consent of the lenders, be extended on an annual basis. The credit facility includes an expansion feature ("accordion") which allows the Company, upon approval from the lenders, to increase the facility amount by up to $500.0 million by adding a new financial institution or by increasing the commitment of its existing lenders. The Company also has a $50.0 million operating revolver, resulting in a total bank credit facility capacity of $1,850.0 million without giving effect to the accordion feature. The facility can be drawn in either Canadian or U.S. funds and bears interest at the bank's prime lending rate, banker's acceptance rates or LIBOR (for U.S. borrowings), plus applicable margins.

The Company also has a term loan with a syndicate of banks. On February 3, 2017, the Company increased the term loan from $250.0 million to $650.0 million and extended its maturity date to February 2022. The term loan can be drawn in either Canadian or U.S. funds and bears interest at the bank's prime lending rate, banker's acceptance rates or LIBOR (for U.S. borrowings), plus 200 basis points. With the exception of the increase in amount and maturity date extension, the term debt was renewed under the same terms and conditions as those outlined in note 9 of the Company's consolidated financial statements for the year ended December 31, 2016. The maturity date may, at the request of the Company and with consent of the lenders, be extended on an annual basis. The covenants for the term loan are the same as those under the Company's current credit facility and the term loan will rank equally with the obligation under the Company's credit facility.

The Company's aggregate borrowing capacity is now $2.5 billion.

As at September 30, 2017, the Company had negative working capital of $350.1 million, after adjusting for the fair value of financial instruments (the unadjusted working capital deficiency was $352.1 million) (December 31, 2016 – $184.3 million and $223.8 million, respectively). As at September 30, 2017, the Company had $648.1 million in long-term debt outstanding and $773.9 million drawn against the revolving credit facility for total bank debt of $1,422.0 million (net of prepaid interest and debt issue costs) (December 31, 2016 - $1,406.6 million). In addition, Tourmaline has outstanding letters of credit of $17.1 million (December 31, 2016 - $18.6 million), which

reduce the credit available on the facility. Net debt at September 30, 2017 was $1,772.2 million excluding the fair value of financial instruments (December 31, 2016 - $1,590.9 million).

The remainder of the 2017 exploration and development program will continue to be diligently monitored and adjusted as necessary depending on commodity prices. As at September 30, 2017, the Company also has $1,060.9 million in unutilized borrowing capacity. Management is dedicated to keeping a strong balance sheet, which has proven to be very important, especially in the current commodity price environment.

SHARES AND STOCK OPTIONS OUTSTANDING

As at November 8, 2017, the Company has 269,783,946 common shares and 19,934,864 stock options outstanding.

COMMITMENTS AND CONTRACTUAL OBLIGATIONS

In the normal course of business, the Company is obligated to make future payments. These obligations represent contracts and other commitments that are known and non-cancellable.

PAYMENTS DUE BY YEAR

(000s)	**1 Year**	**2-3 Years**	**4-5 Years**	**>5 Years**	**Total**
Operating leases	$ 5,614	$ 8,130	$	$ –	$ 13,744
Firm transportation and processing agreements	311,116	710,515	646,835	1,771,802	3,440,268
Capital commitments [1]	314,684	531,388	159,122	39,301	1,044,495
Flow-through share commitments	13,539	–	–	–	13,539
Credit facility [2]	–	–	885,193	–	885,193
Term debt [3]	21,462	42,924	678,281	–	742,667
	$ 666,415	$ 1,292,957	$ 2,369,431	$1,811,103	$ 6,139,906

(1) Includes drilling commitments, and capital spending commitments under the joint arrangement in the Spirit River complex of $300.0 million per year until 2019. The capital spending commitment can be deferred to future periods in the event of an economic downturn, and as agreed upon by both parties. At September 30, 2017, an economic downturn event, as defined in the joint arrangement in the Spirit River complex had occurred and as a result the 2017 capital budget has been adjusted downward and the original planned capital will be deferred to future periods.

(2) Includes interest expense at an annual rate of 2.75% being the rate applicable to outstanding debt on the credit facility at September 30, 2017.

(3) Includes interest expense at an annual rate of 3.30% being the fixed rate on the term debt at September 30, 2017.

OFF BALANCE SHEET ARRANGEMENTS

The Company has certain lease arrangements, all of which are reflected in the commitments and contractual obligations table above, which were entered into in the normal course of operations. All leases have been treated as operating leases whereby the lease payments are included in operating expenses or general and administrative expenses depending on the nature of the lease.

FINANCIAL RISK MANAGEMENT

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board has implemented and monitors compliance with risk management policies.

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to market conditions and the Company's activities. The Company's financial risks are discussed in note 5 of the Company's audited consolidated financial statements for the year ended December 31, 2016.

As at September 30, 2017, the Company has entered into certain financial derivative contracts in order to manage commodity price and interest rate risk. These instruments are not used for trading or speculative purposes. The Company has not designated its financial derivative contracts as effective accounting hedges, even though the Company considers all commodity contracts to be effective economic hedges. Such financial derivative contracts are recorded on the consolidated statement of financial position at fair value, with changes in the fair value being recognized as an unrealized gain (loss) on the consolidated statement of income (loss) and comprehensive income (loss). The contracts that the Company has in place at September 30, 2017 are summarized and disclosed in note 3 of the Company's unaudited interim condensed consolidated financial statements for the three and nine months ended September 30, 2017 and 2016.

The Company has entered into physical delivery sales contracts to manage commodity risk. These contracts are considered normal sales contracts and are not recorded at fair value in the consolidated financial statements. Physical contracts in place at September 30, 2017 have been summarized and disclosed in note 3 of the Company's unaudited interim condensed consolidated financial statements for the three and nine months ended September 30, 2017 and 2016.

APPLICATION OF CRITICAL ACCOUNTING ESTIMATES

Certain accounting policies require that management make appropriate decisions with respect to the formulation of estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Management reviews its estimates on a regular basis. The emergence of new information and changed circumstances may result in actual results or changes to estimates that differ materially from current estimates. The Company's use of estimates and judgments in preparing the interim condensed consolidated financial statements is discussed in note 1 of the consolidated financial statements for the year ended December 31, 2016.

DISCLOSURE CONTROLS AND PROCEDURES AND INTERNAL CONTROLS OVER FINANCIAL REPORTING

The Company's Chief Executive Officer and Chief Financial Officer have designed, or caused to be designed under their supervision, disclosure controls and procedures ("DC&P"), as defined by National Instrument 52-109. The Company's Chief Executive Officer and Chief Financial Officer have designed, or caused to be designed under their supervision, internal controls over financial reporting ("ICFR"), as defined by National Instrument 52-109, to provide reasonable assurance regarding the reliability of the Company's financial reporting and the preparation of financial statements for external purposes in accordance with IFRS.

There were no changes in the Company's DC&P or ICFR during the period beginning on July 1, 2017 and ending on September 30, 2017 that have materially affected, or are reasonably likely to materially affect, the Company's

ICFR. It should be noted that a control system, including the Company's disclosure and internal controls and procedures, no matter how well conceived can provide only reasonable, but not absolute assurance that the objectives of the control system will be met and it should not be expected that the disclosure and internal controls and procedures will prevent all errors or fraud.

The Company uses the guidelines as set in the Committee of Sponsoring Organizations of the Treadway Commission 2013 Internal Control-Integrated Framework.

BUSINESS RISKS AND UNCERTAINTIES

Tourmaline monitors and complies with current government regulations that affect its activities, although operations may be adversely affected by changes in government policy, regulations or taxation. In addition, Tourmaline maintains a level of liability, property and business interruption insurance which is believed to be adequate for Tourmaline's size and activities, but is unable to obtain insurance to cover all risks within the business or in amounts to cover all possible claims.

See "Forward-Looking Statements" in this MD&A and "Risk Factors" in Tourmaline's most recent annual information form for additional information regarding the risks to which Tourmaline and its business and operations are subject.

IMPACT OF ENVIRONMENTAL REGULATIONS

The oil and gas industry is currently subject to regulation pursuant to a variety of provincial and federal environmental legislation, all of which is subject to governmental review and revision from time to time. Such legislation provides for, among other things, restrictions and prohibitions on the spill, release or emission of various substances produced in association with certain oil and gas industry operations, such as sulphur dioxide and nitrous oxide. In addition, such legislation sets out the requirements with respect to oilfield waste handling and storage, habitat protection and the satisfactory operation, maintenance, abandonment and reclamation of well and facility sites. Compliance with such legislation can require significant expenditures and a breach of such requirements may result in suspension or revocation of necessary licenses and authorizations, civil liability and the imposition of material fines and penalties.

The use of fracture stimulations has been ongoing safely in an environmentally responsible manner in western Canada for decades. With the increase in the use of fracture stimulations in horizontal wells there is increased communication between the oil and natural gas industry and a wider variety of stakeholders regarding the responsible use of this technology. This increased attention to fracture stimulations may result in increased regulation or changes of law which may make the operation of the Company's business more expensive or prevent the Company from operating its business as currently conducted. Tourmaline focuses on conducting transparent, safe and responsible operations.

NON-GAAP FINANCIAL MEASURES

This MD&A or documents referred to in this MD&A make reference to the terms “cash flow”, “operating netback”, “working capital (adjusted for the fair value of financial instruments)”, “net debt”, “adjusted EBITDA”, “senior debt”,

"total debt", and "total capitalization" which are not recognized measures under GAAP, and do not have a standardized meaning prescribed by GAAP. Accordingly, the Company's use of these terms may not be comparable to similarly defined measures presented by other companies. Management uses the terms "cash flow", "operating netback", "working capital (adjusted for the fair value of financial instruments)" and "net debt", for its own performance measures and to provide shareholders and potential investors with a measurement of the Company's efficiency and its ability to generate the cash necessary to fund a portion of its future growth expenditures or to repay debt. Investors are cautioned that the non-GAAP measures should not be construed as an alternative to net income determined in accordance with GAAP as an indication of the Company's performance. The terms "adjusted EBITDA", "senior debt", "total debt", and "total capitalization" are not used by management in measuring performance but are used in the financial covenants under the Company's credit facility. Under the Company's credit facility "adjusted EBITDA" means generally net income or loss, excluding extraordinary items, plus interest expense and income taxes and adjusted for non-cash items and gains or losses on dispositions, "senior debt" means the sum of drawn amounts on the credit facility, the term loan and outstanding letters of credit less cash and cash equivalents and excluding debt issue costs ("bank debt"), "total debt" means generally the sum of "senior debt" plus subordinated debt (Tourmaline currently does not have any subordinated debt), and "total capitalization" means generally the sum of the Company's shareholders' equity and all other indebtedness of the Company including bank debt, all determined on a consolidated basis in accordance with GAAP.

Cash Flow

A summary of the reconciliation of cash flow from operating activities (per the statements of cash flow), to cash flow, is set forth below:

	Three Months Ended, September 30,		Nine Months Ended September 30,	
(000s)	**2017**	**2016**	**2017**	**2016**
Cash flow from operating activities (per GAAP)	**$ 266,525**	$ 185,067	**$ 883,107**	$ 504,767
Change in non-cash working capital	**(15,198)**	464	**(25,576)**	(25,508)
Cash flow	**$ 251,327**	$ 185,531	**$ 857,531**	$ 479,259

Operating Netback

Operating netback is calculated on a per-boe basis and is defined as revenue (excluding processing income) less royalties, transportation costs and operating expenses, as shown below:

	Three Months Ended, September 30,		Nine Months Ended September 30,	
($/boe)	**2017**	**2016**	**2017**	**2016**
Revenue, excluding processing income	**$ 18.84**	$ 19.54	**$ 21.12**	$ 16.51
Royalties	**(0.56)**	(0.77)	**(0.93)**	(0.54)
Transportation costs	**(3.01)**	(2.82)	**(2.90)**	(2.23)
Operating expenses	**(3.00)**	(3.26)	**(3.24)**	(3.46)
Operating netback [(1)]	**$ 12.27**	$ 12.69	**$ 14.06**	$ 10.28

(1) May not add due to rounding.

Working Capital (Adjusted for the Fair Value of Financial Instruments)

A summary of the reconciliation of working capital to working capital (adjusted for the fair value of financial instruments) is set forth below:

(000s)	**As at September 30, 2017**	**As at December 31, 2016**
Working capital (deficit)	**$ (352,068)**	$ (223,781)
Fair value of financial instruments – short-term (net)	**1,956**	39,517
Working capital (deficit) (adjusted for the fair value of financial instruments)	**$ (350,112)**	$ (184,264)

Net Debt

A summary of the reconciliation of net debt is set forth below:

(000s)	**As at September 30, 2017**	**As at December 31, 2016**
Bank debt	**$ (1,422,046)**	$(1,406,586)
Working capital (deficit)	**(352,068)**	(223,781)
Fair value of financial instruments – short-term (net)	**1,956**	39,517
Net debt	**$ (1,772,158)**	$(1,590,850)

SELECTED QUARTERLY INFORMATION

(1) See Non-GAAP Financial Measures.

The oil and gas exploration and production industry is cyclical. The Company's financial position, results of operations and cash flows are principally impacted by production levels and commodity prices, particularly natural gas prices.

On an annual basis, the Company has had continued production growth over the last two years. The Company's average annual production has increased from 154,403 boe per day in 2015 to 185,672 boe per day in 2016 and 235,255 boe per day in the first nine months of 2017. The production growth can be attributed primarily to the Company's exploration and development activities, and from acquisitions of producing properties.

The Company's cash flow was $850.2 million in 2015, $731.8 million in 2016 and 2017 forecast cash flow is $1,187.5 million. The increase in forecast cash flow in 2017 reflects the increase in commodity prices for 2017 compared to 2016 as well as the significant increase in production. Commodity price fluctuations can indirectly impact expected production by changing the amount of funds available to reinvest in exploration, development and acquisition activities in the future. Changes in commodity prices impact revenue and cash flow available for exploration, and also the economics of potential capital projects as low commodity prices can potentially reduce the quantities of reserves that are commercially recoverable. The Company's capital program is dependent on cash flow generated from operations and access to capital markets.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

AS AT SEPTEMBER 30, 2017 AND FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2017 AND 2016

(tabular amounts in thousands of dollars, unless otherwise noted) (unaudited)

Corporate Information:

Tourmaline Oil Corp. (the "Company") was incorporated under the laws of the Province of Alberta on July 21, 2008. The Company is engaged in the acquisition, exploration, development and production of petroleum and natural gas properties.

The Company's registered office is located at Suite 2400, 525 – 8th Avenue S.W., Calgary, Alberta, Canada T2P 1G1.

1. BASIS OF PREPARATION

These unaudited interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard 34, "Interim Financial Reporting". These unaudited interim condensed consolidated financial statements do not include all of the information and disclosure required in the annual financial statements and should be read in conjunction with the Company's consolidated financial statements for the year ended December 31, 2016.

These unaudited interim condensed consolidated financial statements are presented in Canadian dollars and include the accounts of Tourmaline Oil Corp., and its 90.6% owned subsidiary Exshaw Oil Corp. (note 8), which both have a functional currency of Canadian dollars. Tourmaline Oil Corp. also includes its 100% owned subsidiary Tourmaline Oil Marketing Corp., which has a functional currency of US dollars.

The accounting policies and significant accounting judgments, estimates, and assumptions used in these unaudited interim condensed consolidated financial statements are consistent with those described in Notes 1 and 2 of the Company's consolidated financial statements for the year ended December 31, 2016, except as noted below.

On January 1, 2017, the Company adopted the amendments made to IAS 7 – Statement of Cash Flows, which require disclosures that enable users of the financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flow and non-cash changes. There was no impact to the Company as a result of adopting the amended standard.

These unaudited interim condensed consolidated financial statements reflect only the Company's proportionate interest in such activities. The unaudited interim condensed consolidated financial statements were authorized for issue by the Board of Directors on November 8, 2017.

Future accounting changes

The following pronouncements from the IASB will become effective or were amended for financial reporting periods beginning on or after January 1, 2018 and have not yet been adopted by the Company. These new or

revised standards permit early adoption with transitional arrangements depending upon the date of initial application.

IFRS 9 – Financial Instruments replaces the existing guidance in IAS 39 *Financial Instruments: Recognition and Measurement*. The new standard includes revised guidance on the classification and measurement of financial instruments, including a new expected credit loss model for calculating impairment on financial assets, and the new general hedge accounting requirements. It also carries forward the guidance on recognition and derecognition of financial instruments from IAS 39. IFRS 9 is effective for annual reporting periods beginning on or after January 1, 2018 with early adoption permitted. The Company currently does not apply hedge accounting to its financial instruments and does not currently intend to apply hedge accounting to any of its financial instruments upon adoption of IFRS 9. The Company will continue to monitor industry trends on the treatment of physical delivery contracts.

IFRS 15 – Revenue from Contracts with Customers establishes a comprehensive framework for determining whether, how much and when revenue is recognized. It replaces existing revenue recognition guidance, including IAS 18 *Revenue*, IAS 11 *Construction Contracts* and IFRIC 13 *Customer Loyalty Programmes*. IFRS 15 is effective for annual reporting periods beginning on or after January 1, 2018 with early adoption permitted. The Company is currently finalizing the review of its revenue contracts with customers and does not expect the adoption of IFRS 15 to have material impact on the consolidated financial statements. The adoption of IFRS 15 will result in enhanced disclosure of disaggregated revenue streams by product type and any impairment losses recognized on receivables from contracts with customers.

IFRS 16 – Leases sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract, i.e. the customer (‘lessee’) and the supplier (‘lessor’) and replaces the previous leases standard, IAS 17 Leases. IFRS 16 is effective for annual reporting periods beginning on or after January 1, 2019. The Company is in the early stages of evaluating the impact of IFRS 16 on its consolidated financial statements and the extent of the impact has not yet been determined.

2. DETERMINATION OF FAIR VALUE

A number of the Company’s accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

Tourmaline classifies the fair value of transactions according to the following hierarchy based on the amount of observable inputs used to value the instrument.

Level 1 – Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions occur in sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 – Pricing inputs are other than quoted prices in active markets included in Level 1. Prices are either directly or indirectly observable as of the reporting date. Level 2 valuations are based on inputs, including quoted forward prices for commodities, time value and volatility factors, which can be substantially observed or corroborated in the marketplace.

Level 3 – Valuations in this level are those with inputs for the asset or liability that are not based on observable market data.

The fair value of accounts receivable, and accounts payable and accrued liabilities approximate their carrying amounts due to their short term nature. Bank debt bears interest at a floating market rate with applicable variable margins, and accordingly the fair market value approximates the carrying amount. The Company's financial instruments have been assessed on the fair value hierarchy described above and classified as Level 2.

3. FINANCIAL RISK MANAGEMENT

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board has implemented and monitors compliance with risk management policies.

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to market conditions and the Company's activities. The Company's financial risks are consistent with those discussed in note 5 of the Company's consolidated financial statements for the year ended December 31, 2016.

As at September 30, 2017, the Company has entered into certain financial derivative contracts in order to manage commodity price, foreign exchange and interest rate risk. These instruments are not used for trading or speculative purposes. The Company has not designated its financial derivative contracts as effective accounting hedges, even though the Company considers all commodity and interest rate contracts to be effective economic hedges. As a result, all such contracts are recorded on the interim consolidated statement of financial position at fair value, with changes in the fair value being recognized as an unrealized gain or loss on the interim consolidated statement of income (loss) and comprehensive income (loss).

The Company has the following financial derivative contracts in place as at September 30, 2017 (1):

		2017	2018	2019	2020	Fair Value *(000s)*
Gas						
AECO swaps	*mmbtu/d*	18,956	–	–	–	$ 1,784

(1) The volumes and prices reported are the weighted average volumes and prices for the period.

(2) These are basis differentials for Non-AECO markets. A portion of these financial basis deals have a cap on NYMEX, 8.6 mmcf/d at USD $3.93/mcf for 2018-2020.

(3) These are European calls whereby the counterparty can exercise the option monthly on a particular day to purchase NYMEX at a specified price.

(4) These are European and Asian swaptions whereby the Company provides the option to extend an oil swap into the period subsequent to the call date, or retroactively fix the price on the volumes under the contract.

The Company has entered into the following financial derivative contracts subsequent to September 30, 2017:

Type of Contract	Quantity	Time Period	Contract Price
Gas Basis differentials – other [1]	10,000 mmbtu/d	July 2018 – October 2018	USD$(0.22)/mmbtu
Oil Financial Swap	500 bbls/d	January 2018 – December 2018	USD$52.30/bbl

(1) This is a basis differential for a non-AECO market. This trade has a cap on NYMEX, 10 mmcf/d at USD$3.00/mcf.

The Company has entered into multiple interest rate swaps over the next seven years at an annual average interest rate as detailed below:

	2017	2018	2019	2020	2021	2022	2023	Fair Value
Effective interest rate [1]	1.54%	1.54%	1.58%	1.43%	1.54%	1.71%	1.97%	
Notional amount hedged (000s)	$ 725,000	$ 725,000	$ 707,000	$ 571,000	$ 509,000	$ 282,000	$ 94,000	$ 13,997

(1) Canadian Dealer offer rate, excluding stamping and stand-by fees.

The following table provides a summary of the unrealized gains (losses) on financial instruments recorded in the consolidated statements of income (loss) and comprehensive income (loss) for the three and nine months ended September 30, 2017 and 2016:

	Three Months Ended September 30,		Nine Months Ended September 30,	
(000s)	**2017**	**2016**	**2017**	**2016**
Unrealized gain (loss) on financial instruments – commodity contracts	**$ (7,058)**	$ 15,689	**$ 62,256**	$ (76,420)
Unrealized gain (loss) on financial instruments – interest rate swaps	**10,129**	1,039	**16,327**	435
Total unrealized gain (loss) on financial instruments	**$ 3,071**	$ 16,728	**$ 78,583**	$ (75,985)

In addition to the financial commodity contracts discussed above, the Company has entered into physical delivery sales contracts to manage commodity risk. These contracts are considered normal sales contracts and are not recorded at fair value in the consolidated financial statements.

The Company has the following physical contracts in place at September 30, 2017 [1][7]:

		2017	2018	2019	2020	2021
Gas						
Fixed price [2]	*mcf/d*	285,532	142,404	–	–	–
	CAD$/mcf	$ 3.22	$ 2.97			
Basis differentials - AECO [3][4]	*mmbtu/d*	115,707	189,363	187,500	187,500	94,062
	USD$/mmbtu	$ (0.66)	$ (0.76)	$ (0.75)	$ (0.75)	$ (0.68)
Basis differentials - Dawn	*mmbtu/d*	–	18,836	25,000	25,000	6,164
	USD$/mmbtu		$ (0.15)	$ (0.15)	$ (0.15)	$ (0.15)
Basis differentials – Stn 2	*mcf/d*	57,391	51,255	39,478	37,812	29,478
	CAD$/mcf	$ (0.18)	$ (0.17)	$ (0.16)	$ (0.20)	$ (0.20)
AECO Monthly Calls / Call Swaptions [3]	*mcf/d*	3,194	71,086	37,913	–	–
	CAD$/mcf	$ 2.85	$ 4.26	$ 2.74		
Oil						
Fixed differential - Oil [5]	*bbls/d*	776	1,552	–	–	–
	USD$/bbl	$ (6.75)	$ (6.95)			
Fixed differential - Condensate[6]	*bbls/d*	–	1,034	–	–	–
	USD$/bbl		$ 1.05			

(1) The volumes and prices reported are the weighted-average volumes and prices for the period.

(2) These include AECO and Dawn.

(3) Tourmaline also has an average of 60.8 mmcf/d of NYMEX-AECO basis differentials at $(0.70) from 2022-2024. A portion of these basis deals have a cap on NYMEX, 35.7 mmcf/d at USD$4.18/mcf for 2017, 170.5 mmcf/d at USD$4.10/mcf from 2018-2020 and 52.5 mmcf/d at USD$4.45/mcf from 2021-2024.

(4) These are monthly calls for 2017 that are European Swaptions, whereby the Company provides the option to extend a gas swap into the period subsequent to the call date or increase the volumes under contract. In 2018, there is a combination of monthly calls and European Swaptions.

(5) Tourmaline sells physical crude at a fixed differential to NYMEX.

(6) Tourmaline sells physical condensate at a fixed differential to NYMEX.

(7) Tourmaline also has entered into deals to sell 30,000 mmbtu/d at Chicago GDD pricing less transportation costs from April 2015 to October 2020; 20,000 mmbtu/d at Chicago GDD pricing less transportation costs from April 2015 to March 2020; 5,000 mmbtu/d at Chicago GDD pricing less transportation costs from November 2017 to March 2023; 25,000 mmbtu/d at Emerson GDD pricing less transportation costs from November 2016 to October 2017; and 20,000 mmbtu/d at Ventura GDD pricing less transportation costs from April 2015 to October 2020.

The Company has entered into the following physical contracts subsequent to September 30, 2017:

Type of Contract	Quantity	Time Period	Contract Price
Gas Fixed Price – AECO	10,000 GJs/d	April 2018 – October 2018	CAD$1.80/GJ

4. EXPLORATION AND EVALUATION ASSETS

(000s)	
As at December 31, 2016	$ 678,531
Capital expenditures	74,969
Transfers to property, plant and equipment *(note 5)*	(52,001)
Acquisitions	18,482
Divestitures	(9,374)
Expired mineral leases	(21,148)
As at September 30, 2017	**$ 689,459**

Exploration and evaluation ("E&E") assets consist of the Company's exploration projects which are pending the determination of proven and probable reserves, as well as undeveloped land. Additions represent the Company's share of costs on E&E assets during the period.

Impairment Assessment

In accordance with IFRS, an impairment test is performed if the Company identifies an indicator of impairment. At September 30, 2017 and December 31, 2016, the Company determined that no indicators of impairment existed on its E&E assets; therefore, an impairment test was not performed.

5. PROPERTY, PLANT AND EQUIPMENT

Cost

(000s)	
As at December 31, 2016	$11,008,617
Capital expenditures	970,775
Transfers from exploration and evaluation *(note 4)*	52,001
Change in decommissioning liabilities *(note 6)*	19,549
Acquisitions	63,394
Divestiture	(12,178)
As at September 30, 2017	**$12,102,158**

Accumulated Depletion, Depreciation and Amortization

(000s)	
As at December 31, 2016	$ 2,551,407
Depletion, depreciation and amortization	550,384
As at September 30, 2017	**$ 3,101,791**

Net Book Value

(000s)	
As at December 31, 2016	$ 8,457,210
As at September 30, 2017	**$ 9,000,367**

Future development costs of $6,971.9 million were included in the depletion calculation at September 30, 2017 (December 31, 2016 – $6,417.4 million).

Capitalization of G&A and Share-Based Payments

A total of $17.8 million in G&A expenditures have been capitalized and included in PP&E at September 30, 2017 (December 31, 2016 – $23.7 million). Also included in PP&E are non-cash year to date share-based payments of $14.7 million (December 31, 2016 - $22.8 million).

Impairment Assessment

In accordance with IFRS, an impairment test is performed on a CGU if the Company identifies an indicator of impairment. At September 30, 2017 and December 31, 2016, the Company determined that there were no indicators of impairment on any of the Company's CGUs; therefore impairment tests were not performed.

Business Combinations

Minehead-Edson-Ansell

On January 29, 2016, the Company acquired assets in the Minehead-Edson-Ansell area of the Alberta Deep Basin for cash consideration of $183.0 million before customary adjustments. The acquisition resulted in an increase in lands, production, reserves and facilities in a core area of the Alberta Deep Basin.

Results from operations are included in the Company's consolidated financial statements from the closing date of the transaction. The acquisition has been accounted for using the purchase method based on fair values as follows:

(000s)	**Minehead-Edson-Ansell**
Fair value of net assets acquired:	
Property, plant and equipment	$ 179,230
Exploration and evaluation	4,753
Decommissioning obligations	(983)
Total	$ 183,000
Consideration:	
Cash	$ 183,000

Shell Canada

On November 30, 2016, the Company acquired assets in the Alberta Deep Basin and the Northeast B.C. Gundy area ("Gundy assets") for total consideration of $1,367.8 million, including cash consideration of $1,000.1 million before customary adjustments and 10,017,938 Tourmaline common shares at a deemed price of $36.70 per share. Total transaction costs incurred by the Company of $1.6 million associated with this acquisition were expensed in the consolidated statement of income (loss) and comprehensive income (loss). The Deep Basin assets acquired resulted in significant increases in lands, production, reserves and facilities in a core development area of the Company. The Gundy assets acquired include land, production and reserves and now provide the Company with sufficient size and scope in the Northeast BC Montney play to drive strategic Company-operated infrastructure development.

Results from operations are included in the Company's audited consolidated financial statements from the closing date of the transaction. The acquisition has been accounted for using the purchase method based on fair values as follows:

(000s)	**Shell Canada**
Fair value of net assets acquired:	
Property, plant and equipment	$ 1,333,367
Exploration and evaluation	38,493
Decommissioning obligations	(4,106)
Total	$ 1,367,754
Consideration:	
Cash	$ 1,000,096
Common Shares	367,658
Total	$ 1,367,754

Acquisitions and Dispositions of Oil and Natural Gas Properties

For the nine months ended September 30, 2017, the Company completed property acquisitions for cash of $27.4 million (December 31, 2016 - $42.5 million) and, a further $54.5 million in acquisitions involving non-cash consideration (December 31, 2016 - $8.0 million). Of the $54.5 million, $14.9 million relates to assets acquired by issuing 475,000 Tourmaline common shares at a price $31.27 per share with the remaining relating to asset swaps completed in the period. The Company also assumed $0.4 million in decommissioning liabilities as a result of these acquisitions (December 31, 2016 - $1.4 million).

The Company also completed property dispositions for the nine months ended September 30, 2017 for total cash consideration of $4.0 million (December 31, 2016 - $48.0 million).

6. DECOMMISSIONING OBLIGATIONS

The Company's decommissioning obligations result from net ownership interests in petroleum and natural gas assets including well sites, gathering systems and processing facilities. The Company estimates the total undiscounted amount of cash flow required to settle its decommissioning obligations is approximately $428.9 million (December 31, 2016 – $392.0 million), with some abandonments expected to commence in 2034. A risk-free rate of 2.31% (December 31, 2016 – 2.31%) and an inflation rate of 2.0% (December 31, 2016 – 2.0%) were used to calculate the decommissioning obligations.

(000s)	**As at September 30, 2017**	**As at December 31, 2016**
Balance, beginning of period	**$ 212,669**	$ 163,459
Obligation incurred	**16,913**	14,798
Obligation incurred on property acquisitions	**391**	6,520
Obligation divested	**(86)**	(1,406)
Obligation settled	**(1,510)**	(1,367)
Accretion expense	**3,829**	3,607
Change in future estimated cash outlays	**2,636**	27,058
Balance, end of period	**$ 234,842**	$ 212,669

7. BANK DEBT

The Company has a covenant-based, unsecured, credit facility in place with a syndicate of banks, the details of which are described in note 9 of the Company's consolidated financial statements for the year ended December 31, 2016. This is an extendible revolving facility in the amount of $1,800.0 million with a maturity date of June 2022. The maturity date may, at the request of the Company and with consent of the lenders, be extended on an annual basis. The credit facility includes an expansion feature ("accordion") which allows the Company, upon approval from the lenders, to increase the facility amount by up to $500.0 million by adding a new financial institution or by increasing the commitment of its existing lenders. The Company also has a $50.0 million operating revolver, resulting in a total bank credit facility capacity of $1,850.0 million without giving effect to the accordion feature. The facility can be drawn in either Canadian or U.S. funds and bears interest at the bank's prime lending rate, banker's acceptance rates or LIBOR (for U.S. borrowings), plus applicable margins.

The Company also has a term loan with a syndicate of banks. On February 3, 2017, the Company increased the term loan from $250.0 million to $650.0 million and extended its maturity date to February 2022. The term loan can be drawn in either Canadian or U.S. funds and bears interest at the bank's prime lending rate, banker's acceptance rates or LIBOR (for U.S. borrowings), plus 200 basis points. With the exception of the increase in amount and maturity date extension the term debt was renewed under the same terms and conditions as those outlined in note 9 of the Company's consolidated financial statements for the year ended December 31, 2016. The maturity date may, at the request of the Company and with consent of the lenders, be extended on an annual basis. The covenants for the term loan are the same as those under the Company's current credit facility and the term loan will rank equally with the obligation under the Company's credit facility.

The Company's aggregate borrowing capacity is now $2.5 billion.

As at September 30, 2017, the Company had $648.1 million in long-term debt outstanding and $773.9 million drawn against the bank credit facility for total bank debt of $1,422.0 million (net of prepaid interest and debt issue costs) (December 31, 2016 - $1,406.6 million). In addition, Tourmaline has outstanding letters of credit of $17.1 million (December 31, 2016 - $18.6 million), which reduce the credit available on the facility. The effective interest rate for the nine months ended September 30, 2017 was 2.50% (nine months ended September 30, 2016 – 2.52%). As at September 30, 2017, the Company is in compliance with all debt covenants.

8. NON-CONTROLLING INTEREST

The Company owns 90.6 percent of Exshaw Oil Corp., a private company engaged in oil and gas exploration in Canada. A reconciliation of the non-controlling interest is provided below:

(000s)	**As at September 30, 2017**	As at December 31, 2016
Balance, beginning of period	**$ 27,549**	$ 28,431
Share of subsidiary's net income (loss) for the period	**(225)**	(882)
Balance, end of period	**$ 27,324**	$ 27,549

9. SHARE CAPITAL

(a) Authorized

Unlimited number of Common Shares without par value.

Unlimited number of non-voting Preferred Shares, issuable in series.

(b) Common Shares Issued

	As at September 30, 2017		As at December 31, 2016	
(000s) except share amounts	**Number of Shares**	**Amount**	**Number of Shares**	**Amount**
Balance, beginning of period	**268,595,812**	**$ 5,818,867**	221,335,925	$ 4,266,234
For cash on public offering of common shares (1)(4)	–	–	32,146,200	1,037,722
For cash on public offering of flow-through common shares (2)(3)	–	–	2,210,500	69,760
Issued on corporate and property acquisitions (*note 5*)	**475,000**	**14,854**	10,017,938	367,658
For cash on exercise of stock options	**713,134**	**16,549**	2,885,249	82,217
Contributed surplus on exercise of stock options	–	**5,668**	–	28,717
Share issue costs	–	**(437)**	–	(45,684)
Tax effect of share issue costs	–	**117**	–	12,243
Balance, end of period	**269,783,946**	**$ 5,855,618**	268,595,812	$ 5,818,867

(1) On April 5, 2016, the Company issued 10.388 million common shares at a price of $27.11 per share for total gross proceeds of $281.6 million. A total of 37,500 common shares were purchased by insiders.

(2) On May 17, 2016, the Company issued 1.320 million flow-through shares at a price of $35.50 per share for total gross proceeds of $46.9 million. The implied premium on the flow-through common shares was determined to be $9.0 million or $6.85 per share. As at September 30, 2017, the Company had spent the full committed amount. The expenditures were renounced to investors in January 2017 with an effective renunciation date of December 31, 2016.

(3) On October 20, 2016, the Company issued 0.891 million flow-through shares at a price of $44.50 per share for total gross proceeds of $39.6 million. The implied premium on the flow-through common shares was determined to be $7.7 million or $8.63 per share. As at September 30, 2017, the Company is committed to spend $13.5 million on qualified exploration expenditures by December 31, 2017. The expenditures were renounced to investors in January 2017 with an effective renunciation date of December 31, 2016.

(4) On November 30, 2016, the Company issued 21.759 million common shares at a price of $34.75 per share for total gross proceeds of $756.1 million. A total of 175,000 common shares were purchased by insiders.

10. EARNINGS (LOSS) PER SHARE

Basic earnings-per-share attributed to common shareholders was calculated as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2017	**2016**	**2017**	**2016**
Net earnings (loss) for the period *(000s)*	**$ 50,580**	$ 24,738	**$ 258,694**	$ (91,592)
Weighted average number of common shares – basic	**269,783,946**	234,600,727	**269,400,351**	229,507,106
Earnings (loss) per share – basic	**$ 0.19**	$ 0.11	**$ 0.96**	$ (0.40)

Diluted earnings-per-share attributed to common shareholders was calculated as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2017	**2016**	**2017**	**2016**
Net earnings (loss) for the period *(000s)*	**$ 50,580**	$ 24,738	**$ 258,694**	$ (91,592)
Weighted average number of common shares – diluted	**269,784,882**	235,627,273	**269,439,702**	229,507,106
Earnings (loss) per share – fully diluted	**$ 0.19**	$ 0.10	**$ 0.96**	$ (0.40)

There were 19,897,864 and 16,903,165 options excluded from the weighted-average share calculations for the three and nine month periods ended September 30, 2017 because they were anti-dilutive (three and nine months ended September 30, 2016 – 11,637,666 and 18,282,566 options were anti-dilutive).

11. SHARE-BASED PAYMENTS

The Company has a rolling stock option plan. Under the employee stock option plan, the Company may grant options to its employees up to 22,931,635 shares of common stock, which represents 8.5% of the current outstanding common shares. The exercise price of each option equals the volume-weighted average market price for the five days preceding the issue date of the Company's stock on the date of grant and the option's maximum term is seven years. Options are granted throughout the year and vest 1/3 on each of the first, second and third anniversaries from the date of grant.

				Nine Months Ended September 30,
		2017		2016
	Number of Options	Weighted Average Exercise Price	Number of Options	Weighted Average Exercise Price
Stock options outstanding, beginning of period	**20,037,497**	**$ 37.26**	19,746,414	$ 36.50
Granted	**1,281,500**	**27.75**	620,300	33.74
Exercised	**(713,134)**	**23.21**	(1,922,480)	28.72
Expired	**(75,000)**	**28.92**	–	–
Forfeited	**(617,499)**	**38.83**	(161,668)	38.94
Stock options outstanding, end of period	**19,913,364**	**$ 37.13**	18,282,566	$ 37.20

The average trading price of the Company's common shares was $27.95 during the nine months ended September 30, 2017 (nine months ended September 30, 2016 – $30.29).

The following table summarizes stock options outstanding and exercisable at September 30, 2017:

Range of Exercise Price	Number Outstanding at Period End	Weighted Average Remaining Contractual Life	Weighted Average Exercise Price	Number Exercisable at Period End	Weighted Average Exercise Price
$22.49 - $29.26	4,165,499	4.03	26.57	972,298	26.49
$30.06 - $39.57	7,066,365	3.39	34.59	3,307,165	34.52
$40.18 - $48.99	7,104,000	1.45	42.13	6,124,667	41.97
$51.47 - $56.76	1,577,500	1.77	53.85	1,577,500	53.85
	19,913,364	2.70	37.13	11,981,630	40.22

The fair value of options granted during the nine-month period ended September 30, 2017 was estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions and resulting values:

		September 30,
	2017	2016
Fair value of options granted (weighted average)	**$ 8.55**	$ 9.65
Risk-free interest rate	**1.32%**	1.89%
Estimated hold period prior to exercise	**5 years**	4 years
Expected volatility	**33%**	33%
Forfeiture rate	**2%**	2%
Dividend per share	**$ 0.00**	$ 0.00

12. COMMITMENTS

In the normal course of business, the Company is obligated to make future payments. These obligations represent contracts and other commitments that are known and non-cancellable.

PAYMENTS DUE BY YEAR

(000s)	**1 Year**	**2-3 Years**	**4-5 Years**	**>5 Years**	**Total**
Operating leases	$ 5,614	$ 8,130	$	$ –	$ 13,744
Firm transportation and processing agreements	311,116	710,515	646,835	1,771,802	3,440,268
Capital commitments (1)	314,684	531,388	159,122	39,301	1,044,495
Flow-through share commitments	13,539	–	–	–	13,539
Credit facility (2)	–	–	885,193	–	885,193
Term debt (3)	21,462	42,924	678,281	–	742,667
	$ 666,415	$ 1,292,957	$ 2,369,431	$1,811,103	$ 6,139,906

(1) Includes drilling commitments, and capital spending commitments under the joint arrangement in the Spirit River complex of $300.0 million per year until 2019. The capital spending commitment can be deferred to future periods in the event of an economic downturn, and as agreed upon by both parties. At September 30, 2017, an economic downturn event, as defined in the joint arrangement in the Spirit River complex had occurred and as a result the 2017 capital budget has been adjusted downward and the original planned capital will be deferred to future periods.

(2) Includes interest expense at an annual rate of 2.75% being the rate applicable to outstanding debt on the credit facility at September 30, 2017.

(3) Includes interest expense at an annual rate of 3.30% being the fixed rate on the term debt at September 30, 2017.
